

# Lamb Purchase Plan

## Circle One

### Option A

I will take care of my lamb purchase. I will not need any help.

### Option B

I want you to take care of purchasing my lamb. I would like you to spend up to \$\_\_\_\_\_.

### Option C

I would like to go to a lamb breeder's farm with you and be a part of the selection process. I would like to spend \$\_\_\_\_\_. I understand that Mrs. Sawyer will make an appointment with the breeder, it will be during the weekend, and I may only have a few days notice depending on the breeder's schedule.

---

Lamb purchasing takes a great deal of effort on my part and it is important that I work to make sure everyone has a chance to be successful. It is very critical that a trained eye evaluate them and it is also important that the person making the selection also understands the genetics. Be very cautious to go out on your own. Industry changes yearly so if you have someone helping you find a lamb make sure they have been successful in the last year raising and showing lambs as times are very different than previous years. If you have me help you in selection, understand that once the lamb is ordered then there is no backing out. Lambs will be purchased and I can not afford to pay for anyone's back out. Thanks, Rachel Sawyer.
